

Meeting Announcement

Prof. em. Abul Abbas, MBBS

"Immunology Update: Selected Topics and their Relevance to Disease"

Prof. em. Abul Abbas

Abul Abbas is Professor Emeritus at the Department of Pathology at UCSF, California. In this *Immunology Update* Session he will give an overview of recent topics in immunology, with the goal to stimulate lively discussions and bring awareness to the challenges in the field with an emphasis on the clinical relevance of basic science.

This is a full-day preface of the conference *"Bridging Innovation and Translation in T cell Immunotherapy"* chaired by Prof. Dietmar Zehn and Prof. Benjamin Youngblood with an open registration.

Registration for the full meeting is not required to attend this seminar.

Seminar Organising Committee:

Dr. Anna Schulz

Prof. Benjamin Youngblood

Prof. Dietmar Zehn
